

NAVAL INVENTORY CONTROL POINT (NAVICP), MECHANICSBURG, PA MULTIPLE AWARD
CONSTRUCTION CONTRACT (MACC)

1. OVERVIEW OF THE CONTRACT

The intent of this contract is to provide design/build, maintenance, repair and alteration of real property. The work will be concentrated in, but not limited to (Naval Inventory Control Point (NAVICP), Mechanicsburg, PA) Area of Responsibility (AOR). This contracting tool was developed with the goal of delivering expedient construction type services of greater quality at less cost to our customers through the continuous benefits of competition after contract award, while minimizing the selection and order process. This contracting vehicle provides for award of individual construction projects, defined as Task Orders, under one of four indefinite quantity contracts. Orders shall be placed on a firm-fixed price basis and may be for an estimated construction cost between \$25,000 and \$5 million each. Task Orders exceeding \$5 million will require bilateral agreement between the contractor and the Navy. Each individual contract is in effect for a thirty-six-- (36) month ordering period. There is no set maximum amount that can be awarded under each of the four contracts awarded other than the total amount for all task orders issued under all four contracts will not exceed \$15 million throughout the full contract performance period.

The following four indefinite quantity contracts were awarded on 16 May 2001:
