

WATERFRONT MULTIPLE AWARD CONSTRUCTION CONTRACT (MACC)

OVERVIEW

The intent of this contract vehicle is to provide construction and repairs for waterfront structures such as piers, wharves, seawalls and other similar structures in tidal waters. The work will be concentrated with but not limited to the Commands 10 state area, which includes Maine, New Hampshire, Rhode Island, Connecticut, Vermont, Massachusetts, New York, New Jersey, Pennsylvania, and Delaware. The MACC provides for award of individual construction projects, defined as task orders, under one of three indefinite quantity contracts. Task Orders may require design services in all aspects of construction for new and renovation projects. The anticipated cost range for each task order will generally be between \$100,000 and \$3M. The maximum value for all contracts under the MACC will be \$30M over the 5 year contract period (12/27/00 to 12/27/05).

Contracts awarded to large business contractor contain subcontracting plans with goals for subcontracting to various types of small businesses. These contracts were awarded to the firms listed after this paragraph. Orion is a large business, Haskell Construction is a HUBZone small business and Triton Marine is a small business.
