

**Finding of Suitability to Lease
Utility Right-of-Way to
Virginia Natural Gas By
Naval Weapons Station Yorktown
Williamsburg, VA**

In accordance with ASN I&E Memorandum of 22 December 1993, I have reviewed the Environmental Baseline Survey (EBS) checklist prepared by Langley and McDonald, Inc. and other related appropriate information, supplied by LANTDIV Real Estate, concerning this property.

Based on a review of the information, the use of a 10-foot wide utility right-of-way (approximately 5600 LFT) along Route 238 (Old Williamsburg Road) in the vicinity of the main gate is suitable for lease to Virginia Natural Gas for placement of a permanent natural gas pipeline.

Hazardous substances or petroleum products have not been stored for one year or more and are not known to have been released, treated or disposed of on the parcel.
