

LANTDIV OICC ROICC
Conference
12-13 Jan 2000

LANTDIV CPM
Scheduling Initiative

LANTDIV Scheduling Initiative

- With every contract we award, the contractor receives five things:
 - Time
 - Money
 - A Site
 - Plans and Specifications or Statement of Work
 - Rules/Regulations
- The Contractor's most effective tool for managing Time and Money has always been a Sound Progress Schedule.

LANTDIV Scheduling Initiative

- ROICC Goals = Customer Satisfaction:
 - Safe Work Site
 - Quality as Established by the Contract
 - On Time
 - Within Budget
- The use of Progress Schedules to manage construction projects has been minimal.

LANTDIV Scheduling Initiative

- More efficient management of our contracts is needed now more than ever due to shrinking budgets and continued customer satisfaction.
 - Paperless Contracting
 - Internet Contract Management
 - Electronic Presentations
- We must initiate the requirement for CPM Progress Schedules on all future contracts now!

LANTDIV Scheduling Initiative

- 01321 Network Analysis Schedules has just been rewritten.
 - Signals to the construction community that our field offices are going to take a more active role in project schedule management
 - Will require a common software
 - Primavera Project Planner P3 (ECC > \$5.0M)
 - Primavera Sure Track (ECC < \$5.0M)
 - Resource Loaded

LANTDIV Scheduling Initiative

- CPM Training is needed now!
 - COE Training expensive and not worthwhile for our application.
 - 01321 requires contractor sponsored training
- Short Term
 - Checklists will be provided for all AROICCs to assist them in the evaluation of Baseline and Schedule Updates (E-Mailed next week)
 - In-House Training Programs Currently being drafted (Implement June 00)

LANTDIV Scheduling Initiative

- Long Term
 - Provide Consultant services by IDQ contract (to provide formal training programs as well as “help line” services as required by specific need. (Implement Sep 00)

Ultimate Goals

- Make the contractor's most effective tool a common link to our management efforts with our mutual goals being to:
 - Have a safe job
 - Assure Quality
 - complete it on time
 - within budget
 - Making a customer Happy!!
